12-03-1999

## Skills

Html 5

Css 3

Javascript

Figma

Adobe XD

## About Me

I am a multidisciplinary web and UI/UX designer with a curious mind who is passionate about creating beautiful interfaces in order to enhance user's experience by taking a methodical and design approach which includes User research, user empathy, user testing and prototyping.

## Work Experience

10-02-2020  
12-01-2021

**HITECH BARTER TRADING LIMITED**  
**WEB ADMINISTRATOR**

I was privileged to design, develop, maintain and troubleshoot an e-commerce website for the above company. Most importantly, I ensured a safe and efficient user experience. This included implementing security protocols, modifying programs, creating backups, resolving software problems, updating contents and more.

## My Education

12-11-2016  
06-08-2021

**UNIVERSITY OF ABUJA**  
**BSC COMPUTER SCIENCE**

I studied computer science at the above prestigious university for four years. During my study, I developed interest in creating user interfaces and web designs of which enabled me to successfully design an online Doctor's appointment management system (which allowed people to book appointments with Doctors) during my final year project.

## Projects

### CHEFKEM FOOD APPLICATION

Complete UI UX of a food application using figma
